Driving America: The World's Premier Automotive Exhibition

Centered around an unparalleled collection of historically significant vehicles, this remarkable mix of authentic artifacts, digital media, interactive play, and personal accounts focuses on the enormous influence the automobile has had on American culture.

With Liberty and Justice for All

"With Liberty & Justice for All" is a groundbreaking exhibit that explores the proud and often painful evolution of American freedom: from the Revolutionary War through the struggle for civil rights. See and hear the past trials, tribulations, and triumphs of the enduring spirit of Freedom.

Heroes of the Sky

Visitors to Heroes of the Sky: Adventures in Early Flight will be awed and inspired by people's stories from the first forty years of aviation. Historic airplanes bring to life the lofty accomplishments of America's pioneering aviators. Come honor the people who shaped the skies with their minds, hearts, and even their lives.

Presidential Limousines

Among the nationally renowned artifacts of the Museum are the vehicles in which 20th-century American presidents traveled. You will find this unique exhibit thoroughly fascinating and truly unforgettable.

Made in America

Manufacturing and Power are the two sections of this exhibit that explores the legacy of American innovators from the 18th to 20th centuries who made America a manufacturing superpower! Hundreds of artifacts, including operating steam engines, help tell their stories.

Midafternoon we return to the hotel to fresh up. Tonight, we will tour and dine at the Ford Piquette Avenue Plant. This plant built in 1904 was the second center of automobile production for the Ford Motor Company. At the Piquette Avenue Plant the company created and first produced the Ford Model T. It was also the first factory where more than one hundred cars were assembled in one day. Dinner and tour are included this evening.
